06/2008 - 06/2018

92.6%

Courses

- Science & Technology

PROJECTS

Inventory Management System (02/2021 - 06/2021)

- Built an Inventory Management System(My Dukaan) for local shopkeepers to keep track of weekly/monthly buying & selling of Goods as a group Project with other 2 members.
- Here we made use of HTML along with Bootstrap for Front-End and php & MySQL for connection and database respectively.
- Basic Client-side scripting was done with the help of JavaScript

Food Ordering Website (04/2023 - 05/2023)

- CulinaryCraze is a Food Ordering Website developed by me as a part of my Internship Submission of Minor Project
- Frontend is well-designed with HTML, CSS and in Back-end I have used PHP for connections & MySQL for database.
- I have developed an Administration section for the Admin to perform CRUD Operations on Foods, Orders, etc.

Portfolio Website (06/2022 - 08/2022)

- The first Web Application developed by me and worked on for augmenting functionality and responsiveness.
- Here I have used HTML & CSS to make the Website super responsive to the best of my skills. Added the Email facility to interact with me
- Used JavaScript for DOM Manipulations and for adding some functionality to the Website

Calculator App (08/2020 - 08/2020)

- Built a simple Web-based Calculator as a part of Task involved in Virtual Internship.
- Main Focus was learning and applying JavaScript to perform the various mathematical operations.
- Used HTML & CSS for structuring and designing of the Calculator.

SKILLS

JavaScript

Frontend Development

C++

Java

PHP

MySQL

NodeJS & ExpressJS

MongoDB

ACHIEVEMENTS

JEE Advanced 2020

Achieved a total of 126/396 Positive Marks

JEE Main 2020

Secured 91.71 Percentile with an All India Rank of 88953

MHT-CET 2020

Secured 91.79 Percentile with an All India Rank of 3589

INTERNSHIPS

SkillVERTEX (03/2023 - Present)

Developed a Full Stack Zomato clone as a Minor Project using HTML, CSS, JavaScript, php. Currently working on My Major Project which is a Hospital Management System which as planned is a Full Stack working Web Application

CodeClause (02/2023 - 03/2023)

I had the role of Web Developer Intern in this virtual Internship program where I developed with reference My Portfolio Website which is a highly responsive website with main focus on Designing

CERTIFICATES

The Web Developer Bootcamp 2022 (10/2022 - 12/2022)

I have hands on Full Stack Web Development where I worked on technologies like HTML, CSS, JavaScript, NodeJs & ExpressJS, Nodemon & MongoDB and implemented it on a final project which was a Campgrounds Website on Udemy

Mastering Data Structures & Algorithms using C and C++ (07/2022 - 08/2020)

Used C & C++ to implement DSA & Problem Solving. Also I worked on how The Time & Space complexities can be reduced for a particular Problem and give a more Optimum Solution. Learned about the various Searching Techniques
